# Vishal Steel Industries

[www.vishalsteels.in](http://www.vishalsteels.in)

We are one of the distinguished Supplier, Distributor, Wholesaler and Importer of a wide array of Industrial Steels. Our range of products is widely demanded for its durability and corrosion resistant features.

## Profile

Established in the year **1992**, we '**Vishal Steel Industries**', are a renowned wholesaler, distributor, supplier & importer of Stainless Steel Products. Manufactured using premium grade raw material the entire range is procured from the trusted vendors of market. Our range of products has gained wide appreciation for features like high tensile strength, wear resistance, excellent finish, corrosion resistant and durability. These products are comprehensively demanded in engineering related industries.

Our quality-centric approach has helped us in gaining a remarkable position in the market. There is team of efficient and experienced professionals, which strives hard to ensure smooth running of all business related processes. We also ensure that products are well tested on various parameters before procurement by our quality auditors. All the procured products are stored safely at our sophisticated warehouse under the supervision of our professionals. They make sure that the urgent and bulk requirements of our customers are timely delivered. Further, we accept payments via various easy modes to ease out the complex process of monetary transactions.

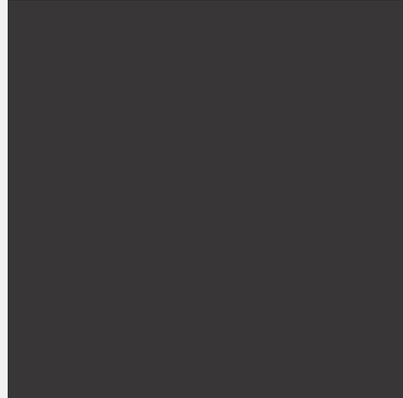

All of our business operations are efficiently managed by our mentor '**Mr. Pukhraj Purohit**', who have always been the main driving force behind the success and growth of our organization. Owing to his strong management skills, we have garnered a comprehensive clientele across domestic market. Due to our quality products, we have our huge clientele from all across the globe.
